

December 30, 2021

God gives us life in units of days, months and years and we give it back to him in faithful service.

Part of that faithful service is the defense of the unborn, who are the most unprotected children of all.

And no need to take my word for it – the Alan Guttmacher institute made it clear recently that [2021 was the worst year for “abortion rights” in almost half a century.](#)

We have seen

- A record number of state-level restrictions and regulations on abortion, granting
 - Protection to babies in the womb
 - Safety regulations on chemical abortion
 - Protection of our tax dollars from going to abortion
 - And more
- In particular, Texas successfully enacted the “Heartbeat Law,” protecting babies throughout the state from the time their heartbeat can be detected (about 6 weeks into pregnancy; 4 weeks from when they are conceived).
- The US Supreme Court accepted and heard arguments in the *Dobbs* case, which could further weaken or even reverse *Roe vs. Wade* and allow states to actually protect unborn babies prior to viability
- Republican members of Congress challenged the Democrats this year to have a vote on a bill that would expand protection for **babies born alive** after a failed abortion. But the Democrats showed their extremism by not even supporting that **Born-Alive Abortion Survivors Protection Act**.
- Great pro-life victories and signs of strength at every level in the 2021 “off-year” elections

We have also seen

- The most pro-abortion Presidential Administration in history, which wants no restrictions on abortion or on the taxpayers’ funding of it, expands abortion internationally, and makes it easier for moms to kill their babies by mail-order.
- The most pro-abortion Congress in history, controlled by the extreme Democrats, who have advanced the most radical increase in taxpayer funding of abortion in history;
- The Democrat Congress also introduced the **Women’s Health Protection Act**, which is nothing more than a protection of the abortion industry from every reasonable regulation and restriction that Americans strongly support (like parental involvement, clinic regulations, freedom of conscience to refuse to participate in abortion, and limits on late-term abortion).
- The appointment of radical pro-abortion extremists to various positions in the federal government

At Priests for Life, we have stood firm in support of pro-life policies and personnel, and in opposition to pro-abortion policies and personnel. We have

- Greatly expanded our online broadcasting, reaching millions of new people;
- Provided expert guidance, education, advocacy and prayer for a pro-life victory at the Supreme Court [in the Dobbs case](#)
- Initiated new educational projects like [My Heart Beats Just Like Yours](#)
- Intensified our [training of the clergy to advocate for the unborn and heal those wounded by abortion](#)
- Grown our [Rachel's Vineyard outreach](#) worldwide
- Given men and women the opportunity to share their abortion stories through [Silent No More](#)
- Published new books through Priests for Life Publishing
- Brought national pro-life leaders together for planning, strategizing and networking
- Paid off our new headquarters and expanded our staff
- And much more

You can see an overview of our 2021 accomplishments at www.PriestsForLife.org/EndOfYearReports.

You also prayed me through [a very successful open heart surgery](#) this past year! I am **fully back to normal** in all my activities, and, as the doctors predicted, have even more energy and vigor than ever before!

For 2022, we are poised to

- Help pro-life candidates win in the 2022 midterm elections
- Help pro-life people understand and build on the results of the Supreme Court Dobbs case
- Activate Churches, across denominational lines, more effectively than ever
- Continue to expand our influence through live broadcasts every day
- And more...

Through all of this, I have exercised transparency and accountability as the leader of Priests for Life [through my "Daily Diary" videos](#), in which I explain in detail what I did every day from when I woke up in the morning to when I went to bed at night. I will continue doing this, not skipping a single day.

We appreciate the support we receive from many bishops, [some of whom have been guests this year on my daily broadcasts](#). But **more importantly**, we appreciate **your support**, and ask you to continue it in the New Year!

Onward to victory over abortion!

Thank you, God bless you, and Happy New Year!
